PROJECTS

ONLINE RESUME GENERATOR

The Online Resume Generator is a full-stack web application built using the MERN stack (MongoDB, Express.js, React.js, Node.js). This platform allows users to create professional resumes dynamically, customize them with different templates, and download them as PDFs.

SMART LIVING SPACES

Smart Living Spaces combines IoT, embedded systems, and machine learning to create an intelligent ecosystem. Utilizing Python and Arduino IDE, the platform empowers users with seamless control and monitoring of Home, Door, and Garden kits via a user-friendly website interface. **Tech Stack:** Python, Arduino IDE, HTML, CSS, PHP

YOGA WEBSITE:

This project is a fully responsive Yoga website built with React.js. It allows users to explore yoga classes, register for online/offline sessions, watch live classes, and access free trials.
